

TS1000

TS1000

With a stroke of 1000mm this lift handles very large LDC/plasmas. Despite the big stroke, the unit only requires a build in height of 750mm. Featured with anti-squeeze protection. Remote controlled with RF.

TS1000 fits the following VESA:

- 200x200
- 300x300
- 400x100
- 400x400
- 600x200
- 600x400
